

Complacency's End

by Clare Hagan

Havin' to struggle, that is all some people know
Parents try hard to not let emotions show
Kids wonder why their parents are so stressed
Why they always say that they are blessed
Dad is laid off work and the next thing you know is they've got . . .

(1st pre-chorus)

Nowhere to go
No place to call home
We'll let 'em know that

(2nd pre-chorus)

Complacency ends tonight
We're not going down without a fight
Our time is now and

(chorus)

We're not going, not going down
You better watch out cause we don't play around
We may look small to you now but we're changing the rules
You don't have to be scared, but don't be fooled
We got our hearts set and now we're gonna change the world

Through this recession, great depression and all in between
We've seen it all when the world can seem so mean
Fear and worry at the back of people's minds
We'll help to pull them through
For they've got . . .

(repeat pre-choruses and chorus)

We'll help you make it through today and tomorrow and the next day
One day at a time turns into a life
Changed forever tonight
Help one person tonight you can change their life
You could make things right.

(repeat 1st pre-chorus and chorus)
