

Who Are My Sisters and Brothers?

True or False Questionnaire

1. Asians are highly proficient in math and science.
2. Muslims support terrorism.
3. Upper middle class white girls with designer clothes, cell phones, and “Ipods” don’t care about social change, climate control, or intellectual pursuits.
4. Black people are more gifted in athletics while white people are more gifted in academics.
5. The media covers stories that simply report facts about all races and ethnicities fairly and without bias; and they interview experts from all races in proportion to their population.
6. Many illegal immigrants make use of the United States welfare system.
7. There is great emphasis on obtaining and maintaining wealth in Judaism.
8. Latinos are prone to be more “hot-blooded” than other cultures.
9. Whites have a more up-hill battle than any other group in getting into a good college.
10. In the U.S. today, women and minorities are finally represented in all levels of business in proportion to their percentage of the population.
