

May 27, 2026

The Honorable Susan Collins
Chairwoman
Committee on Appropriations
U.S. Senate
Washington, DC 20510

The Honorable Tom Cole
Chairman
Committee on Appropriations
U.S. House of Representatives
Washington, DC 20515

The Honorable Patty Murray
Vice Chair
Committee on Appropriations
U.S. Senate
Washington, DC 20510

The Honorable Rosa DeLauro
Ranking Member
Committee on Appropriations
U.S. House of Representatives
Washington, DC 20515

Dear Chair Collins, Vice Chair Murray, Chair Cole, and Ranking Member DeLauro:

As Congress undertakes the appropriations process for Fiscal Year 2027, you will be hearing from several USCCB committees encouraging your support for the poor, migrants and refugees, foreign assistance, environmental protection, health care, housing, nutrition, and more to help people meet basic needs, and to maintain longstanding protections for pre-born human life.

Consistent with these requests to support and protect human life and dignity at all stages, I thus write on behalf of the Committee on Laity, Marriage, Family Life, and Youth to respectfully urge you to steward taxpayer funding away from government-sponsored programs that facilitate the spread of gender ideology—what Pope Francis referred to as the “worst danger”¹ in our time—especially as it impacts children.

Congress should prioritize the protection of children from gender ideology in its annual appropriation process for Fiscal Year 2027, by excluding any federal funding for the promotion of gender ideology or provision of sex-rejecting procedures, such as chemical or surgical interventions that aim to alter the fundamental order of the human body. We especially urge Congress to be vigilant in rejecting Congressionally Directed Spending requests that would raise these concerns.

Gender ideology obscures the distinction between man and woman, teaching that biological sex can be disconnected from one’s personal “gender identity,” so that one may decide to reject one’s

biological sexual identity as male or female rather than receive it as a gift from God, who created us in his own image.²

Further, with regard to Congress's historic, one year defunding of the abortion industry in within H.R. 1, Act to Provide for Reconciliation Pursuant to Title II of H. Con. Res. 14 ("One Big Beautiful Bill Act") last year, we urge any future reconciliation bill to apply a similar approach to the "gender transition" industry to prevent federal taxpayer funds from going to organizations that provide sex-rejecting services, especially to children and adolescents.

When vulnerable children are falsely told that one can change his or her sex, they become potential targets for the "gender transition" industry³ with adverse effects to their health and well-being.⁴ This is especially insidious given that children and adolescents are still maturing and not capable of providing informed consent to life-altering medical interventions that often lead to permanent physical mutilation and lifelong infertility.

Please count on my prayers for you as you deliberate the federal appropriations for important priorities of the nation.

Sincerely in Christ,

Most Reverend Edward J. Burns
Bishop of Dallas
Chairman, Committee on Laity, Marriage, Family Life and Youth
