

January 2026

National Eucharistic Revival

Impact Assessment Research

United States
Conference of
Catholic Bishops

Objectives & Methodology

Research Objectives

The overarching objective of the research was to measure the impact of the National Eucharistic Revival:

- ***Personal Transformation:***

Eucharistic belief, ministry work, evangelization confidence, faith activities, attitudinal changes in faith perspective and experience

- ***Parish Community Engagement:***

Impact on parish Eucharistic devotion and availability of (and engagement in) various faith-related activities

- ***Challenges and Future Considerations:***

To help inform similar future initiatives

Nearly 2,500 respondents in the US completed an online, 15-minute survey in the summer and fall of 2025, one year after the initial national Pilgrimage and Congress.

Study Topic Note

- Neither set of respondents (ecclesial or lay Catholics) knew the subject of the study when invited to participate
- Additionally, faith activity changes over time were *not* asked in the context of the Revival until later in the survey

* Sourced from online panels of the General Population (GenPop). Went to Mass at least monthly, though 83% went to Mass at least weekly.

The Ecclesial sample consisted mostly of priests but included a fair number of staff and other Point Persons.

Composition of Ecclesial Sample

Parishioner

Non-ordained and non-staff Point Persons were placed into the “Parishioner” segment.

Staff

*5% Parish staff
15% Diocesan staff*

Clergy

*41% Pastors
5% Non-Pastor Priests
14% Deacons*

Ecclesial; n=414

Ecclesial Segment

Clergy

We will cover 4 key topics:

- 1. Enthusiasm & Promotion of the Revival**
- 2. Personal Impact**
- 3. Parish/Diocesan Impact**
- 4. Challenges**

Enthusiasm & Promotion

Strong leadership enthusiasm at all levels created an environment primed for implementation of the Revival.

- Leadership buy-in was strong at all levels, creating a solid foundation for parish-level implementation
 - *Bishops and pastors demonstrated overwhelming support for the Revival, with 88% of Ecclesial respondents describing their bishop as enthusiastic or supportive.*
 - *Pastors showed even stronger enthusiasm.*
- Outside of the Mass, parish engagement centered on Eucharistic adoration and processions as the primary local activities.

Leadership enthusiasm for the Revival was strong at every level, with 92% of bishops described as supportive by clergy and 92% of pastors describing themselves as supportive.

Perceived Bishop's and Pastor's Enthusiasm for the National Eucharistic Revival

My Bishop

**Myself (Pastor)
(if pastor)**

Q02. How would you describe your bishop's enthusiasm for the National Eucharistic Revival?
Q03. How would you describe your pastor's / your enthusiasm for the National Eucharistic Revival?

Personal Impact

Personal renewal among clergy strengthened their capacity to serve as witnesses to their parishioners and confident evangelizers.

- Nearly half (49%) of clergy report **feeling more encouraged** since the Revival began.
- Also nearly half (48%) of clergy feel **more comfortable encouraging others to share their faith**, indicating the Revival built ministerial confidence.
- The Revival also influenced clergy's **pastoral approach and homiletic content**, demonstrating integration into everyday ministry.

This past favorable experience will help future revival enthusiasm among clergy

Nearly half of clergy (49%) report feeling more encouraged since the Revival began, suggesting the Revival provided a meaningful morale boost.

Revival Impact on General Clergy Morale

Clergy; n=249

Q17. Since the Eucharistic Revival began, what change in clergy morale among yourself and/or your peers have you seen?

Nearly half of clergy reported an increased comfort in encouraging others to share their faith, indicating an impact on removing barriers to evangelization.

Comfort in Encouraging Others to Share their Faith

Clergy; n=249

Q18. Since the Eucharistic Revival began, how has your comfort in encouraging others to share their faith changed?

The Revival refocused clergy on the Eucharist, with a majority reporting substantive changes to their pastoral approach since 2021.

Changes to Ministerial Approach

Clergy; n=249

Q08. Since 2021, how has your pastoral/ministerial approach changed, if at all? (1-5, sig. weaker to sig. stronger)

The Revival had some direct influence on preaching about the Eucharist, with nearly one-third reporting an influence on the frequency with which they did so.

Revival Impact on Homilies

% Indicating Revival Had a Significant or Major influence on Any Homily-related Item we Measured

“The Revival gave me language and courage [to talk about the Eucharist] that I didn’t have before.”

– Deacon

Clergy; n=249

Parish / Diocesan Impact

Observable changes in parish communities validated clergy efforts and provided hope for continued growth beyond the Revival's official conclusion.

- Clergy report strong improvement in **Eucharistic devotion and sacramental life in their parish communities**, and most see the National Eucharistic Revival as a contributor to this renewal.
- The Revival's impact was strongest in areas directly tied to **Eucharistic worship and belief in the Real Presence**, with secondary gains in evangelization and community life.
- **Both national and local activities** were identified among the most fruitful Revival activities in terms of impact at the parish level.
- While the Revival efforts had the greatest impact among engaged Catholics, most reported at least some impact among **all groups of Catholics**

Clergy report strong gains in Eucharistic devotion and sacramental life in their communities. Most see the National Eucharistic Revival as a meaningful contributor to this renewal.

Changes Seen Compared to 3 Years Ago and Perceived Impact of the Revival

Transformational Impact

- Parishioner Eucharistic devotion
- Reverence and attentiveness during Mass
- Confession participation
- Eucharistic adoration opportunities

Significant Factor

- Parish community spirit
- Mass attendance levels
- Evangelization efforts and outreach
- Adult faith formation and catechesis

Notable Influence

- Youth and family engagement
- Confession availability
- Expansion of parish ministries
- Service and charity projects

Clergy; n=249

Q9. Compared to three years ago, how would you describe changes in your parish/diocese in the following areas? (1-5, sig. decreased to sig. increased)

Q10. To what extent do you believe the *National Eucharistic Revival* contributed to any *positive changes* you've observed? (no, small, moderate, significant, major)

National events such as the Congress (64%) and Pilgrimage (63%) delivered deep impact for attendees, while emphasis on Eucharistic adoration and local processions were seen as the most fruitful of Revival activities.

Most Fruitful Revival Activities

(% selecting as most fruitful)

“Our adoration chapel is still full months after the big events.”

– Pastor

While the Revival was most effective at engaging the most active Catholics, its reach was seen across the spectrum of Catholics.

Audience Engagement (according to Clergy POINT PERSONS)

Clergy Point Persons; n=47

A faint, abstract network graph is visible in the background, consisting of numerous small, semi-transparent grey dots connected by thin white lines, creating a sense of a complex, interconnected system.

Ecclesial Segment

Lay Point Persons

Personal Impact

Leading Revival activities deepened the personal faith of Point Persons as well, while building their capacity as evangelizers and catechists.

- Non-Clergy Point Persons experienced significant **personal spiritual growth** through their involvement in the Revival.
- Staff Point Persons reported changes to their **ministerial approach**, indicating the Revival influenced their professional practices beyond event coordination.
- Both staff and parishioner Point Persons demonstrated high levels of **personal investment**, participating as both organizers and disciples.

Staff Point Persons reported significant changes to their ministerial approach since 2021, indicating the Revival influenced their professional practices beyond event coordination.

Changes to Ministerial Approach

Staff Point Persons; n=83

Both staff and parishioner Point Persons experienced significant growth in personal spirituality and Eucharistic devotion.

Growth in Personal Spirituality

(somewhat or significantly stronger)

These effects were notably stronger in Parishioners, who presumably do not have as many opportunities to experience their faith in their everyday professional lives.

Lay Point Persons; n=165

Staff Point Persons; n=83

Parishioner Point Persons; n=82

Ecclesial Segment

Lay Point Persons

Challenges

Addressing capacity constraints and providing clearer guidance will be essential for future initiatives to achieve broader and more sustainable impact.

- As with priests and deacons, Point Persons also experienced two key obstacles: **external barriers and internal constraints**.
- Staff cited **resource limitations and time constraints** at higher rates (63% and 58%), while parishioners more often mentioned **lack of awareness among target audiences** (51%).
- The burden of local implementation fell heavily on volunteers and part-time staff, who often felt they lacked institutional support for sustainable programming.

Reaching beyond already-engaged Catholics was the most often cited challenge of the Revival, followed by limited resources and staff.

Challenges Limiting Revival Impact

These findings are very similar to what was observed among the Clergy respondents.

“We can't keep adding programs without more help.”

– Parish Point Person, Parish Staff

Lay Point Persons; n=165

Staff Point Persons; n=83

Parishioner Point Persons; n=82

Point Persons identified a number of practical support items to make their work more sustainable and effective.

Point Persons' Desired Support from the USCCB / Diocese

These findings are very similar to what was observed among the Clergy respondents.

Lay Point Persons; n=165

Staff Point Persons; n=83

Parishioner Point Persons; n=82

Summary

The Revival had a profoundly positive and lasting impact on the ecclesial segment. While challenges exist, these can be overcome with careful planning, should another event be considered for the future.

Impact

PERSONAL RENEWAL

- More personally encouraged (morale boost)
- More comfortable focusing on evangelizing
- Significant Point Person faith growth

PARISH CHANGES

- Strong gains in Eucharistic devotion
- Increased adoration participation
- More reverent Mass attendance

MOST FRUITFUL

- Large national events (Congress and Pilgrimage)
- Local processions and adoration

Challenges

EXTERNAL OBSTACLES

- Reaching beyond engaged Catholics
- Raising awareness across parishioners
- Apathy among some target audiences

INTERNAL CONSTRAINTS

- Limited time/resources
- Unclear parish coordination
- Capacity for sustained programs

SUSTAINABILITY RISK

- Leadership burnout without more support from organization

LAY CATHOLICS

The lay Catholic sample was segmented into 3 groups for analysis, based on level of participation in Revival activities

Composition of Lay Catholic Sample

Non-Participating Contacts – 26%

- Did NOT actively participate in any Revival activities
- Most came from the USCCB's newsletter (HRN) distribution list; they were aware and connected, just not involved

National Participants – 50%

- Participated in either national Revival event (National Eucharistic Congress / National Eucharistic Pilgrimage) or both
- Mix of participation in local events in addition to national events

Local Participants – 24%

- Participated in local Revival activities such as local processions, small groups, and Revival-specific holy hours
- Did NOT participate in either national event

Lay Catholics; n=1,758

National Participants; n=874

Local Participants; n=425

Contacts; n=459

Over three-quarters of Congress attendees attended in-person and for most of the event, if not all. Most came to Congress as part of organized groups; only one in five attended alone.

Congress Participation Details: How They Attended and Who They Attended With

Who They Attended With

Method of Attending Congress

Lay Catholic Congress Attendees; n=755

Q47. How did you attend the National Eucharistic Congress in Indianapolis in July 2024?

Q48. Did you attend the Congress as part of a group or on your own?

Faith Impact

Changes in the Faith Experience

WHAT we measured:

Frequency *of participation in various faith activities*

Importance *of faith activities to them personally*

Conviction *of beliefs and comfort evangelizing*

Understanding *of beliefs and awareness of knowledge*

Changes in the Faith Experience

HOW we measured:

For all categories, we asked them to rate each item twice using a 5-point scale; (1) as it is today and (2) in 2021, post-COVID. For each scale, we combine the “Top 2” scores for reporting (in bold below):

- **Frequency:** *Never – Rarely – Sometimes – Often – Very often*
- **Importance:** *Not – Slightly – Moderately – Very – Extremely*
- **Conviction:** *Not at all – A little – Somewhat – Quite a lot – Completely*
- **Understanding:** *Very limited – Basic – Good – Strong – Expert*

The greatest growth in importance was observed in volunteering and spending time in Eucharistic adoration.

Change in Importance of Faith-Related Activities Over Last 3 Years

* "Personal prayer" was already very high for all segments, so it is not included here.

Q27. Please tell us how important each of these are in your life today.

Q31. Thinking back to around then, how important were each of these in your life at that time?

Importance Scale: Not – Slightly – Moderately – Very – Extremely

Faith-related activities all showed significant increases since 2021. Volunteering had the greatest net increase.

Change in Frequency of Faith-Related Activities Over Last 4 Years

“After the Congress, I went [to Confession] more. I was going at most once or twice a year, and I’ve been several times since the Congress.”

* “Personal prayer” was already very high for all segments, so it is not included here.

Q29. How often do you currently engage in the following activities?

Q33. Still thinking back to around 2021, how often did you engage in these activities back then?

Frequency Scale: Never – Rarely – Sometimes – Often – Very often

Lay Catholics reported stronger conviction in their faith, with strengthened core beliefs and more comfort evangelizing.

Change in Conviction of Belief Over Last 3 Years

“Public processions helped me recognize that being Catholic isn't something to hide, it's okay to be open about our faith.”

Q30. How would you describe your current level of belief or feelings in each of the following areas today?

Q34. How would you describe your level of belief or feelings in each of the following areas in 2021?

Conviction Scale: Not at all – A little – Somewhat – Quite a lot – Completely

Changes in the Faith Experience

The Revival contributed to strong growth in all areas measured, including among those who were already strong in their faith

- Lay Catholics report substantial growth across multiple dimensions of faith life: increased participation in activities, greater importance placed on faith elements, stronger conviction in Catholic teachings, and deeper understanding of Church doctrine.
- Growth was not limited to one area: participants experienced holistic development, suggesting the Revival touched head (understanding), heart (conviction of belief), hands (participation), and priorities (importance).
- National Participants (those who attended the Pilgrimage or Congress) reported this growth at an even greater level; it is clear that national events were greatly impactful.

Other Changes Since 2021

The data suggests the Revival contributed to a holistic deepening of Catholic faith and practice, not just increased awareness of Eucharistic teaching.

- Lay Catholics report substantial growth across all measured dimensions of faith life since 2021, with particularly strong gains in Eucharistic devotion and sacramental participation.
- Changes were not limited to knowledge or beliefs: Lay Catholics also report behavioral changes, including increased frequency of prayer, adoration, and confession.
- Lay Catholics attribute these changes to multiple factors, with the Revival standing out as a significant influence alongside personal experiences and parish initiatives.

The vast majority of Lay Catholics describe their overall level of faith as stronger now than in 2021, with more than one-third reporting it is "much stronger" rather than just "somewhat stronger."

Overall Level of Faith, Compared to 2021

*Lay Catholics; n=1,758
Participants; n=1,299
Contacts; n=459*

When asked to directly compare their current practices to 2021, Lay Catholics overwhelmingly report praying more, attending adoration more frequently, and going to confession more often.

Frequency of Faith-Related Activities, Compared to 2021

Evangelization activities (sharing faith with others, inviting people to church, and discussing the Eucharist) greatly increased since 2021. This increase was more prevalent among Revival participants.

Frequency of Evangelization Activities, Compared to 2021

Perceived Changes

From a parish community perspective, Revival participants reported an increase in:

- Faith activity opportunities offered
- Attendance at faith-related activities
- Preaching and catechesis topics

Lay Catholics report that their parishes and dioceses now offer more opportunities to participate in evangelization initiatives and Eucharistic adoration.

Availability of Faith Activity Opportunities, Compared to 2021

Q40. Thinking about your parish (and, if you are aware, your diocese): Since 2021, how has the availability of each of the following changed, if at all?
(1-5, Sig. decreased to Sig. increased)

Lay Catholics report that their parishes and dioceses now offer more opportunities to participate in evangelization initiatives and Eucharistic adoration.

Availability of Faith Activity Opportunities, Compared to 2021

Q40. Thinking about your parish (and, if you are aware, your diocese): Since 2021, how has the availability of each of the following changed, if at all? (1-5, Sig. decreased to Sig. increased)

Lay Catholics noticed a significant increase in the frequency of preaching and catechesis on Jesus' Real Presence in the Eucharist.

Preaching and Catechesis Topics, Compared to 2021

Q42. Thinking about your parish, how has the amount of preaching or catechesis on the following topics changed since 2021?
(1-5, Much less frequent to Much more frequent)

Personal Impact of the Revival

The Eucharistic Revival amplified and accelerated Catholics' existing spiritual journeys.

- Participants attribute their general faith growth to multiple influences, with the National Eucharistic Congress and local Revival activities ranking as the most impactful factors.
- While major national events (Congress, Pilgrimage) had great personal impact, even those who did not attend and participated in other ways were positively influenced by local Revival activities.

Nearly half of participants reported that the Congress had a “Significant” or “Major” influence on general life changes.

Faith Events that Influenced General Life Changes

“Major influence” or “Significant influence”

Q37. People’s lives change for many reasons. Thinking about any life changes you’ve experienced since around 2021, how much did each of the following influence those changes, if at all? (1-5: No, Small, Moderate, Significant, Major)

Similarly, nearly half of Participants reported the same level of influence on positive faith life changes.

Faith Events that Influenced Positive Faith Life Changes

“Major influence” or “Significant influence”

Q38. Thinking about any positive changes in your faith or spiritual life you may have experienced since 2021, please indicate how much each of the following influenced those changes: (1-5: No, Small, Moderate, Significant, Major)

Similarly, nearly half of Participants reported the same level of influence on positive faith life changes.

Faith Events that Influenced Positive Faith Life Changes

“Major influence” or “Significant influence”

Q38. Thinking about any positive changes in your faith or spiritual life you may have experienced since 2021, please indicate how much each of the following influenced those changes: (1-5: No, Small, Moderate, Significant, Major)

The Revival succeeded at curating a welcoming space that was well-received by those who participated. While all participants reflected this, National Participants more strongly agreed with these sentiments.

Sentiments

National Participants; n=874

Local Participants; n=425

Q54. Thinking about your experience with the Eucharistic Revival activities (local or national), how much do you agree or disagree with the following statements?
(1-5, Strongly disagree to Strongly agree)

The Revival succeeded at curating a welcoming space that was well-received by those who participated. While all participants reflected this, National Participants more strongly agreed with these sentiments.

Sentiments

National Participants; n=874

Local Participants; n=425

Q54. Thinking about your experience with the Eucharistic Revival activities (local or national), how much do you agree or disagree with the following statements?
(1-5, Strongly disagree to Strongly agree)

Summary

Concluding Thoughts

One year after the major events, it is clear that the Revival had very positive outcomes:

- It fostered personal renewal and confidence among those leading and supporting the Revival, strengthening morale, Eucharistic focus, and comfort evangelizing
- That renewal translated into parish-level impact, with increased engagement in prayer, Eucharistic adoration, confession, and service across communities
- The effects extended beyond internal Church leadership: evangelization activity grew more broadly, strongest among national event participants but evident well beyond that group

The evidence suggests that a future Revival could bear similar fruit and, with clear support and capacity, potentially expand its reach further.

*Additional Slides not included in
Webinar Presentation*

Ecclesial Segment

Tangible, communal experiences (such as Eucharistic adoration and processions) took priority over educational or digital Revival activities.

Parish / Diocesan Involvement in the Revival

Ordained; n=249

Clergy engaged with the Revival both in their official capacities and as participants, attending events, organizing activities, and personally taking part in Revival programming.

Personal Involvement in the Revival

Nearly half of clergy (49%) report feeling more encouraged since the Revival began, suggesting the Revival provided a meaningful morale boost.

Clergy Morale

Ordained; n=249

Q17. Since the Eucharistic Revival began, what change in clergy morale among yourself and/or your peers have you seen?

Nearly half of ordained reported an increased comfort in encouraging others to share their faith, indicating an impact on removing barriers to evangelization.

Comfort in Encouraging Others to Share their Faith

Ordained; n=249

Q18. Since the Eucharistic Revival began, how has your comfort in encouraging others to share their faith changed?

Clergy report strong gains in Eucharistic devotion and sacramental life in their communities; most see the National Eucharistic Revival as a meaningful contributor to this renewal.

Changes Seen Compared to 3 Years Ago and Perceived Impact of the Revival

Q9. Compared to three years ago, how would you describe changes in your parish/diocese in the following areas? (1-5, sig. decreased to sig. increased)

Q10. To what extend do you believe the National Eucharistic Revival contributed to any positive changes you've observed? (no, small, moderate, significant, major)

The Revival stands out as a significant influencer alongside post-pandemic recovery, non-Revival initiatives, and changes in pastoral leadership.

Revival Impact in Context with Other Events' Impact on Positive Changes

* Changes in parishioner Eucharistic devotion, Eucharistic adoration opportunities

** Expansion of parish ministries

Ordained; n=249

Q12. Besides the Eucharistic Revival, how much did these other factors contribute to any positive changes you may have observed?

The Revival faced two main categories of challenges: external obstacles (such as reaching less-engaged Catholics) alongside internal constraints (such as limited time, resources, and coordination issues).

Challenges Limiting Revival Impact

- For efforts like this to achieve broader impact, more intentional strategies may be needed to engage Catholics who are less engaged.
- Sustained success will require additional support, resources, and clarity to relieve the burden on parish staff and volunteers and enable consistent implementation.

Ordained; n=249

Point Persons requested more coordinated guidance, ready-to-use resources, and clearer implementation frameworks to ease the burden of promoting Revival activities at the local level.

Point Persons' Desired Support from the USCCB / Diocese

Ordained Point Persons; n=47

Point Persons reported high levels of bishop support, with 85% perceiving their bishops as enthusiastic or actively supportive of the Revival.

Perceived Bishop's Enthusiasm for the National Eucharistic Revival
(Among those who answered [n=153])

Staff point persons perceived higher pastoral enthusiasm (73%) than parishioner point persons (66%), likely attributed to the closer relationships they have with their pastor.

Perceived Bishop's and Pastor's Enthusiasm for the National Eucharistic Revival
(Among those who answered)

See pie segment key on previous slide.

Q02. How would you describe your bishop's enthusiasm for the National Eucharistic Revival?
Q03. How would you describe your pastor's / your enthusiasm for the National Eucharistic Revival?

Both staff and parishioner Point Persons reported that parishes engaged primarily through Eucharistic adoration and processions, mirroring the pattern seen among ordained respondents.

Parish / Diocesan Involvement in the Revival

Across the board, staff reported more parish and diocesan involvement than did parishioners; this, too, is likely due to being more closely connected with their institutions.

Non-Ordained Point Persons; n=165

Staff Point Persons; n=83

Parishioner Point Persons; n=82

Staff Point Persons took more active roles in promoting the Revival, likely reflecting their professional roles and institutional proximity.

Personal Promotion of the Revival

These gaps were greatest in adoration events, local processions, and family catechesis.

Non-Ordained Point Persons; n=165

Staff Point Persons; n=83

Parishioner Point Persons; n=82

Point Persons engaged with the Revival as both organizers and participants, personally attending events while also coordinating local activities in their parishes.

Personal Involvement in the Revival

Non-Ordained Point Persons; n=165

Staff Point Persons; n=83

Parishioner Point Persons; n=82

Point Persons observed similar patterns of parish renewal as ordained clergy, with strongest gains in Mass attendance and parishioners' Eucharistic devotion.

Changes Seen Compared to 3 Years Ago and Perceived Impact of the Revival

**Positive Changes
Since 2021**
[Somewhat or
Significantly Increased]

Transformational Impact

- Parishioner Eucharistic devotion
- Mass attendance levels
- Eucharistic adoration opportunities
- Youth and family engagement

Significant Factor

- Reverence and attentiveness during Mass
- Adult faith formation and catechesis
- Parish community spirit
- Evangelization efforts and outreach

Notable Influence

- Confession participation
- Expansion of parish ministries
- Service and charity projects
- Confession availability

Non-Ordained Point Persons; n=165

Q9. Compared to three years ago, how would you describe changes in your parish/diocese in the following areas? (1-5, sig. decreased to sig. increased)

Q10. To what extent do you believe the *National Eucharistic Revival* contributed to any *positive changes* you've observed? (no, small, moderate, significant, major)

Point Persons observed similar patterns of parish renewal as ordained clergy, with strongest gains in Mass attendance and parishioners' Eucharistic devotion.

Changes Seen Compared to 3 Years Ago and Perceived Impact of the Revival

	Somewhat increased			Significantly increased			Revival Contribution	
	55%	8%	63%	47%	21%		Mod. + Sig. + Major	Sig. + Major
Mass attendance levels								
Changes in parishioner Eucharistic devotion	52%	8%	60%	59%	32%			
Eucharistic adoration opportunities (hours, events)	42%	17%	59%	55%	37%			
Reverence and attentiveness during Mass	49%	7%	56%	48%	25%			
Youth and family engagement	44%	11%	55%	47%	22%			
Adult faith formation and catechesis	39%	16%	55%	52%	25%			
Parish community spirit	42%	12%	54%	48%	27%			
Evangelization efforts and outreach	39%	13%	52%	48%	27%			
Confession participation	38%	10%	48%	45%	23%			
Expansion of parish ministries	38%	10%	48%	43%	21%			
Service and charity projects	31%	7%	38%	39%	16%			
Confession availability	25%	11%	36%	39%	21%			

Non-Ordained Point Persons; n=165

Q09. Compared to three years ago, how would you describe changes in your parish/diocese in the following areas? (1-5, sig. decreased to sig. increased)

Q10. To what extend do you believe the *National Eucharistic Revival* contributed to any *positive changes* you've observed? (no, small, moderate, significant, major)

Point Persons attributed positive parish changes to multiple factors, with the Revival ranking alongside pastoral transitions and post-pandemic recovery as a significant influence.

Revival Impact in Context with Other Events' Impact on Positive Changes

Non-Ordained Point Persons; n=165

Q12. Besides the Eucharistic Revival, how much did these other factors contribute to any positive changes you may have observed?

Local Eucharistic processions and Eucharistic adoration were rated most fruitful among all Point Persons. Those attending the Pilgrimage and Congress rated them even higher (51% and 45%, respectively).

Most Fruitful Revival Activities

(% selecting as most fruitful)

Non-Ordained Point Persons; n=165

Q14. Which Eucharistic Revival activities were MOST fruitful in your parish/diocese? (select up to 3)

Q15. Which Eucharistic Revival activities were LEAST fruitful in your parish/diocese? (select up to 3)

Audience engagement was high, reflecting effective communication strategies. Point Persons reported the greatest success engaging already-active Catholics such as those regularly attending Mass and volunteering.

Audience Engagement

“We had great materials but struggled to get the word beyond the usual active crowd.”
– Parish Point Person, Director of Rel. Ed.

While inactive Catholics and those on the margins of parish life proved hardest to reach through Revival activities, half of the Point Persons reported at least some success in engaging with them through the Revival.

Non-Ordained Point Persons; n=165

Health	1%	4%	7%	1%	4%	8%

Q51. Which of the following Eucharistic Revival-related activities were you aware of that you did NOT attend for any reason?

Q52. For which of the following reasons did you NOT attend the National Eucharistic Congress?

Q53. For which of the following reasons did you NOT attend the National Eucharistic Pilgrimage?

Nearly one in four participated in a Revival-focused small group. The majority of our respondents were attendees.

Revival Participation Details

Participated in a Revival small-group study

Highest Participation Role

Lay Catholic Participants; n=1,299

Q49. For the Eucharistic Revival-related activities you participated in (including the Congress or Pilgrimage, if applicable), what was your role?

Q46. Did you participate in a Eucharistic Revival small-group study (such as Jesus and the Eucharist)?

Nearly all participants attended local events. Half traveled outside of their diocese, with most of those traveling out of state.

Revival Participation Details

Number of Local Revival Events Attended

Farthest Distance Traveled for Any Revival Event

Lay Catholic Participants; n=1,299

Q45. Since 2021, about how many local National Eucharistic Revival activities have you personally participated in?

Q50. For the Eucharistic Revival-related activities you attended, what was the farthest distance you traveled?

Catholic media and the Revival's official website were the primary sources of information, followed by parish and diocesan communications, showing the importance of promotion at both a national and parish/diocesan-level scale.

Sources of Knowledge about the Revival Events

All three Revival groups demonstrated an overall growth in the importance of a variety of faith practices from 2021 to today.

Importance Shift: 2021 to Today, Very or Extremely Important

Local and national Participants showed the greatest amount of growth in frequency of spiritual practices.

Frequency Shift: 2021 to Today, Often or Very Often

All Revival groups, though especially National Participants, showed growth in their conviction of belief.

Conviction of Belief Shift: 2021 to Today

Similarly, all three Revival groups showed growth in understanding.

Understanding Shift: 2021 to Today

Lay Catholics report observing more attendance in all faith activities, especially in Eucharistic adoration and Mass.

Perceived Attendance of Faith Activity Opportunities, Compared to 2021

Q41. Based on your personal observations when attending parish activities, how has the level of participation changed in each of the following areas since 2021, if at all?

The purpose of the Revival was much clearer for Participants (both National and Local) than Contacts, and fewer felt like the Revival was disconnected from their everyday parish life.

Sentiments

Lay Catholics; n=1,758

National Participants; n=874

Local Participants; n=425

Contacts; n=459

Nine in ten Revival participants say they are likely to continue participating in Eucharistic practices over the next year, compared to seven in ten Contacts; this suggests the Revival created sustained commitment.

Likelihood of Future Eucharist-Focused Practices

Lay Catholics; n=1,758
Participants; n=1,299
Contacts; n=459

Q55. How likely are you to participate in Eucharistic practices such as Eucharistic adoration, the Sacrament of Penance & Reconciliation, or Eucharistic Revival-related activities over the next year?
